

KRAZY FOR KINDYLAND

crafts for kindergarten

Ice Cream Craft: Counting by 10s

Color, Cut, and Glue

Let's Get Krafty!

Krazy for Kindyland crafts align with writing, reading, math, science, and social studies standards. Although crafts and activities are created primarily for kindergarten, teachers from grades Pre-K through 3 have used Krazy for Kindyland crafts in their classrooms, too! There are a variety of ways to modify Krazy for Kindyland crafts to best fit the needs of your students. Products are designed with **efficiency** in mind, as I certainly understand the *KrAZy* schedule of a teacher! Craft pieces are also designed to use as much paper space as possible, as **conservation** is another constant thought on the busy teacher's mind. Depending on the craft, you might choose to **slightly enlarge the pieces** based on the needs and ages of your students, the time of the school year you complete the craft, and/or your preferences. It is helpful to have students **lay out their plan** before gluing.

Krazy for Kindyland crafts are compiled into **bundles**, so be sure to check those out before purchasing individual products among the same theme.

Follow me by clicking the **green star** on my TPT store page. This will ensure you do not miss any **updates or FREEBIES** from Krazy for Kindyland. New products are typically **FREE** for the first 24 hours after they are posted, so be sure to check in frequently.

Be sure to leave **feedback**, as you earn credits on Teachers Pay Teachers! This will allow for you to get even more goodies for your classroom full of cuties!
